

## NEXT GEN BUILDING

At City, we are All in for the Next Generation. Statistics tell us that young people are not continuing to attend church once they move into adulthood. At City Church, we see this as an incredible mission field, an opportunity to reach students with God's word. We desire to reach our students before the message of culture can seep into their hearts, or in other words, to "Get There First!"

Place these words of mine in your hearts and minds. Get them deep inside you. Tie them as symbols on your hands and bind them on your foreheads. Teach them to your children. Talk about them wherever you are, sitting at home or walking in the street; talk about them from the time you get up in the morning until you fall into bed at night.

- Deuteronomy 11 -

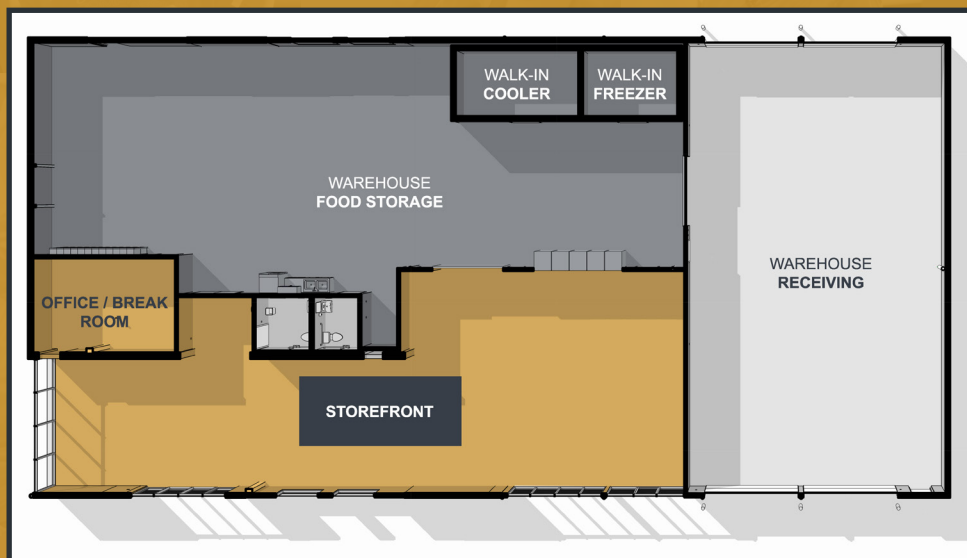

Our church community must prioritize communicating the gospel with our young people, and a huge part of this strategy is to utilize a building dedicated to reaching them. Our heart is to create irresistible environments for this generation to find and follow Christ. This new building project will provide space for our young people to worship God and be shaped into the leaders of tomorrow. The new Youth Auditorium will give our youth a place of their own. Our classrooms will provide space for our 4th and 5th graders and reduce overcrowding in our current City Kids classes. We pray that God will use this state-of-the-art facility to capture students' hearts and harness the gifts He has given them to make the kingdom better!

So the next generation would know,  
and all the generations to come — know the Truth! - Psalm 78

## CITY COMPASSION WAREHOUSE 320 W. HENSLEY BLVD

Our church's outreach ministry, City Compassion, stretches into the communities of Northeast Oklahoma to help the hurting and improve lives. Our efforts are prayerful, strategic, and always fueled by kindness. Our biggest limitation currently is warehouse space to store donations and food supplies.

We were gifted a 8,500 sq. ft. warehouse on Hensley Boulevard, which is located in the heart of the need! Construction has begun to prepare this facility for storing food, receiving trucks, and welcoming our neighbors. It will also include a large commercial walk-in refrigerator and freezer so we can store and distribute perishable items. This will radically improve the volume of goods we can receive and give out weekly. Your financial support will enable City Compassion to deliver HOPE one meal at a time!

Whoever is kind (shows grace) to the needy honors God.  
Generous hands are blessed hands because they give bread  
to the poor. - Proverbs 14:3, 22:9
